Summary

Full-stack Web Developer with a strong passion for building high-quality, user-centric web applications. Proficient in both frontend and backend technologies including React, Node.js, and PostgreSQL, with a sharp eye for design, performance, and scalability. Experienced in collaborating with cross-functional teams to deliver modern, responsive, and intuitive digital experiences. Continuously learning and adopting new technologies to create innovative and impactful solutions in a fast-evolving web landscape.

Work Experience

MBLM

Dubai, United Arab Emirates

Software Engineer

Jul 2025 - Present

- Advise clients on optimal technology solutions and digital transformation strategies, enhancing business outcomes.
- Gather and analyze project requirements from stakeholders to deliver tailored, user-focused software and website solutions.
- Design, develop, and deploy responsive websites with an emphasis on performance, scalability, and usability.
- Conduct regular website maintenance, ensuring security, reliability, and timely updates to support ongoing client needs.
- Implement and manage CI/CD pipelines and DevOps operations, automating deployments and maintaining robust server infrastructure for seamless releases.

ASTUDIO

Dubai, United Arab Emirates

Full-stack Developer

Apr 2024 - Jul 2025

- Design and develop versatile web applications with a focus on performance and usability.
- Oversee server management for deployment and hosting of web applications and websites.
- Implement and manage CI/CD processes to streamline deployment.
- Conduct performance tuning and issue resolution for seamless application functionality.
- Work closely with cross-disciplinary teams to capture requirements and deliver superior software products.
- Continuously research and integrate new technologies to improve development efficiency and outcomes.

GWA-Group

Damascus, Syria

Full-stack Developer

Jan 2023 – Sep 2023

- Collaborate with the design and product teams to create user-friendly and visually appealing interfaces
- Implement responsive designs and ensure cross-browser compatibility
